COAL OIL, For sale at SIMPSON'S DRUG STORE.

THE CALIFORNIA PACIFIC SUIT.—We find the annexed in the Vallejo *Chronicle* of May 14th: "In yesterday's *Chronicle* we published the report that a compromise had been effected between the German bondholders and the Central Pacific people, in the California Pacific suit. We are now able to state that the report is correct, to the extent of the agreement of a majority of the parties interested. The terms of settlement are as follows: The railroad company are to pay fifty per cent. of the principal of the extension or second mortgage bonds when they fall due; but are to pay full interest (seven per cent.) on the whole amount. The whole amount is $3,500,000, so that the company will make by this part of the transaction the present worth of $1,750,000 at seven per cent., one fourteen years hence—the bonds being payable July 1, 1889. The first income bonds, of which the issue is $1,000,000 at ten per cent., and the second income, or double track bonds, of which the issue is $1,000,000, at six per cent., are to be paid in full, but the interest cut down to three and a-half per cent. These two last-mentioned issues are supposed to be mostly owned by the Company's Directors or their friends. If this agreement is ratified, of which there is little doubt, a majority, as we before remarked, favoring it, the California Pacific will come under the complete ownership of the Central Pacific people. A leading Director of the Company says that within one hundred days after the ratification of the compromise, the iron horse will be snorting over the extension of the road from Woodland to Colusa. The enlargement of the terminal facilities at South Vallejo, by the laying of additional side-track, etc., is being done with a view to the construction of this extension. With the new line will be added another artery to the railroad system centering in Vallejo, thus more firmly establishing her prospects of being the depot of Northern California.

A SOFT ANSWER.—The husband was quick tempered and often inconsiderate. They have been married not yet a year, when one day in a fit of hasty wrath he said to his wife:

"I want no correction from you. If you are not satisfied with my conduct you can re urn to your home whence I took you, and find happiness with your kind!"

"If I leave you," returned the unhappy wife, "will you give back that which I brought to you?"

"Every dollar. I covet not your wealth. You shall have it all back."

"Ah!" she answered. "I mean not the wealth of gold. I thought not of the dross. I meant my maiden heart, my first and only love—my buoyant hopes and the promised blessing of my womanhood. Can you give these back to me?"

A moment of thought, of convulsion, and then, taking her to his arms, he said:

"No, no; my wife I cannot do that, but I will do more; I will cherish your blessing as my own, and never again, God help me, will I forget the pledge I gave at the holy altar when you gave your peace and happiness into my keeping."

How true it is that "a soft answer turneth away wrath," and how many, O, how many, of the bitter strifes of domestic life might be avoided by remembering and acting in accordance therewith.

A NEW TROTTER.—The new trotting horse Don Elipha, an animal that has gained considerable distinction in Southern California, arrived from Los Angeles on the Orizaba. The horse was recently purchased by P. A. Finnegan, of Smith & Billings, of Los Angeles, for the sum of $6,000. Don Elipha has a record of 2:30. He recently trotted a two-mile race for $2,000, and won it in the best two-mile time in this State. He is an Arizona mustang of unknown birth, but is a natural trotter of fine, free gait, and of great endurance. Indeed, he once performed the feat of carrying a cavalryman 100 miles in twenty-four hours. Don Elipha is a "buckskin" horse with black feet and legs and a black stripe down his back. He is strongly built, though beautifully formed. His limbs are strong and entirely free from blemish of any kind. He is about fifteen hands high, and is perfectly broken to harness. He spent the night at Bridge's stable on Sutter street, and was to-day taken to the Club Stables on Taylor street, where he will take his place in the Consolidated Virginia stud. It is understood that he will at once go into training, and a match with Abe Edgington is hinted at.

TONGUES.—Nothing but the proboscis of an elephant compares in muscular flexibility with the tongue. It varies in length and size in reptiles, birds, mammalia, according to the peculiar organic circumstances of each. A giraffe's tongue has the functions of a finger. It is hooked over a high branch, its strength being equal to breaking off large strong branches of trees, from which tender leaves are then stripped. An ant-bear's tongue is long and round like a whiplash. The animal tears open dry, clay walls of ant-hills, thrusts his long tongue, which sweeps round the apartments, and by its adhesive saliva brings out a yard of ants at a swoop. The mechanism by which it is protruded so far is both complicated and beautiful. A dog's tongue in lapping water takes a form by a mere act of volition that cannot be imitated by any ingenious mechanism. The tongue in articulation of language surpasses in variety of motions the wildest emotion of a poet. Even in swallowing of food its office is so extraordinary that physiologists cannot explain the phenomena of deglutition without employing the aid of several sciences.

GERMAN COLONIES IN THE HOLY LAND.—One of the singular incidents of the times is the establishment of German colonies in the Holy Land. They are the results of efforts made by Christian Hoffman, who has been actuated partly by religious motives, partly by an earnest belief in the agricultural capabilities of Palestine. There are at present several colonies. One, situated just under Mount Carmel, numbers fifty-six families or over three hundred individuals. The colonists have been very successful in the cultivation of grains and of the grape. Another establishment of forty families or two hundred and thirty-two persons, exists near Jaffa, and has connected with it a hotel, the best in the Holy Land—a steam mill, several small manufactories, a school and hospital. There are three additional colonies, only smaller than these. They are all conducted partially upon the communistic principle, and are yearly increasing in numbers and wealth. The oldest is about seven years. It is not impossible that these German settlements may yet play an important part in the regeneration of Syria.

PLAIN TALK BY A NEW MAYOR.—P. T. Barnum has been inaugurated Mayor of Bridgeport, Conn., and in his remarks to the Council on the question of employment he said: "No person needs to be unemployed who is not over-fastidious about occupation. There are too many soft hands (and heads) waiting for light work and heavy pay. Better work for half a loaf than beg or steal a whole one. Mother Earth is always near by, and ready to respond to reasonable drafts on her never-failing treasury. A patch of potatoes raised 'on shares' is preferable to a pouliced pate earned in a whisky scrimmage. When fashion teaches economy, instead of expending for a gaudy dress what would comfortably clothe the family; when people learn to walk until they can afford to ride; when the poor man ceases to expend more for tobacco than for bread; when those who complain of panics learn that 'we can not eat our cake and keep it;' that a sieve will not hold water, panics will cease and prosperity return."

THE CIVIL RIGHTS BILL IN NORTH CAROLINA.—In a recent trial at Greensboro, N. C., Judge Dick of that State, declined to express any opinion as to the constitutionality of the Civil Rights bill—believing such a course premature—but expressed a concurrence in the construction of the law adopted by the Ohio courts. He holds to the opinion that the act gives the colored man no rights in North Carolina that he did not posses under the old statute laws, with the exception of trial in the United States courts, if he so elect. He was positive as to the right of the State to regulate the marriage question, and held that the law only applied to railroads, steamboats, hotels, and theaters, and did not necessarily place negroes and whites together in these, but only entitled the colored man to the same accomodation as the white man if he can afford it. Separate apartments and coaches could be designated for each race, and neither could infringe upon the rights of the other.

RUNAWAY AND SMASH-UP.—About noon today, while the parade of Montgomery Queen's circus was passing Thirteenth and J streets, a horse attached to a light wagon took fright at the little elphant, who passed very close to him, and started off on a run before he could be secured. In passing the band wagon, drawn by ten horses, with lines handled by the driver from the box, the wagon drawn by the runaway animal turned over and frightened the circus horses so that they started on a dead run, dashing into two hacks, in which were seated Montgomery Queen and his agents, driven by John Toomey and Len Spurgeon. This caused the hack horses to become frightened, and also created a panic among a number of other horses in the vicinity attached to vehicles of various kinds, and a general tangling up of teams followed. The team driven by Spurgeon succeeded in getting away after he was thrown from the box and dashed furiously out on the road, but were followed and caught at Oak Knoll about a mile from the scene. The hack was found badly mashed and the horses were cut slightly about the hind legs. Len Spurgeon, the driver, was injured about the chest and right shoulder in falling, but not seriously. Montgomery Queen and others in the hack jumped out and sustained no injuries. The driver of the band wagon held firmly to the lines and handled his horses in excellent style, turning them at Fourteenth street and bringing them up without doing any damage to the wagon or animals. As the team was dashing along, the musicians jumped out right and left, and, fortunately, all of them escaped any injury. For a time it looked as though the affair would be very serious and result in loss of life, as the street was full of teams and they all became more or less tangled.—*Sac. Herald, 14th.*

PROPER EXERCISE.—When we talk about exercise we are very apt to forget that it is a many-sided work. We use it as if it referred merely to the movement of the muscles. It is necessary to health that all our powers should be exercised, and the continued disuse of any one of them results in its partial or total loss. If one should lie in bed for years, without the slightest ailment, still one would lose the use of the limbs; and this is equally true of different faculties. All our powers grow by use. If we neglect to cultivate the habit of observation, we might as well walk through the world blindfolded. We lose our faculty—what artists call our "touch"—by neglect of practice on other things besides the piano. The man who seldom reads, reads slowly: the woman whose writing is confined to an infrequent letter to some absent child, spends more time over that than does a practised writer over a dozen pages of manuscript. In the realm of the emotions it is the same. Benevolence is largely a matter of habit. So is affection, self-control, gentleness. If then, exercise, in its largest sense, is of so great consequence, we at once see the importance of appointing it to our own personal deeds. If our occupation is sedentary, we need to plan for walks and rides, and active games, to keep our muscles lithe and serviceable. But if our employment gives us enough muscular action, it is not one whit less important to our health of body that we should plan for mental exercise—for employment enough of our memory and our reasoning powers to keep them from rusting. And, in either case, that life must be a dwarfed and unhealthy one that does not provide exercise for our spiritual faculties—for worship, and charity, and patience and magnanimity. Exercise of soul, mind and body can alone bring us to the stature of the perfect man.

BURYING A FORT.—In 1869 a large Russian army besieged the Turkish fort of Azof, which was situated on a plain, strongly fortified, and had a small but well-disciplined garrison. No common approaches could be made to it, and Turkish cannon swept the level with iron hail. In this case the engineering skill of the Russians was baffled; but General Patrick Gordon, the right-hand man of Peter the Great, and the only man for whose death it is said he ever shed a tear, being determined to take the place at any cost, proposed to bury it with earth with gradual approaches. He had a large army; the soil of the plain was light and deep, and he set 12,000 men to work with spades, throwing up a high circumvallation of earth, and advancing nearer and nearer every day the place by throwing the huge earth wall before them in advance. The men were kept in gangs, working day and night, the earth being thrown from one to another like the steps of a stair, the top gang taking the lowest place every half hour in succession. In five weeks the huge earth wall was carried forward nearly one mile, until it rose to and above the highest ramparts, and the earth began to roll over them. This caused the Turkish Governor to hang out the white flag and give in. Had he not done so, General Gordon would have buried the fortress.

THE TRANSIT OF VENUS.—The first determination of the sun's distance computed from observations on last December's transit of Venus, comes from a French source, in the form of a letter addressed to the Astronomer Royal, Prof. Airy, and published by the latter in the London *Daily News*. The computations are made by M. Puiseux, an astronomer of the Paris Observatory, from eye observations at Peking, China, and the Island of St. Paul, in the Indian Ocean. The difference of latitude of these stations is more than 78½ degrees, which gives a pretty long base line for calculations by the Halleyan method. The result announced for the solar parallax is 8.879 seconds. This is a somewhat larger parallax than the favorite figures now in use among astronomers, though not as high as some estimates that have been made. If correct it will reduce the distance of the sun to about 91,000,000 miles. Professor Newcomb's studies, in advance of the transit, led him to the belief that the distance would ultimately be determined between 92,200,000 and 92,700,000 miles.

GEN. FRANK P. BLAIR is steadily improving under the operations of transfusing healthy blood into his veins. He has now received three operations. The first time an ounce and a half was transfused; the second time a little less than four ounces, and the last time five ounces. The first two times he lay almost insensible, and apparently unconscious. The last time he watched the operation with great interest and articulated a few words, which he had not done for some time. He also moved his paralytic arm, and a few minutes afterward fell asleep. His wife and family are represented to be greatly encouraged. Similar operations have been performed recently on two patients in the St. Louis hospital, and in each instance the result is said to have been satisfactory.

DIFFICULT RAILROAD BUILDING.—The Sacramento *Bee* says the railroad work on the Tehachepi Pass is the heaviest ever done in California. In thirteen miles of that pass there is more work to be done to let the locomotive through than had to be done on any thirteen miles of the Central Pacific in the California Sierra. In thirteen miles there will be twelve tunnels, one of them 6,248 feet, over a mile long, and in one place there are two tunnels in the same hill one right above the other. The train will dart through the "lower level" on the ascending grade; and after sporting around among the hills for awhile, making distance to do the climbing, will come out near the same place it went in, but at a greater altitude.

CALIFORNIA RAISINS.—The New York American Grocer says: "The California raisins exhibited by Mr. Spafford showed a striking contrast with the Malaga raisins, also turned out before us. The California fruit was large, moist, rich in flavor, uniform in quality and in a splendid condition, while that from Malaga was small, dry, irregularly packed, good on top and poor on bottom. Mr. S informs us that California will put up this year about 60,000 boxes, against 25,000 last year, and that the production will rapidly increase from year to year. We can see no reason why we may not in a few years be entirely independent of Spain for our supply of raisins."

OLDEST CONDUCTOR.—A hale, hearty old man named Robert Nixon is now in his seventy-fourth year, and has for the last quarter of a century been a resident of California. He was conductor of the first passenger train that was run over a railroad in the United States. Recently Mr. Nixon called on Governor Stanford and exhibited his credentials as the oldest railroad conductor in the United States, whereupon the Governor presented him with a life pass over the Central Pacific and Southern Railroads.

NEWSPAPER RIVALRY.—The London *Times* is now sent into the country by special trains running at high speed, and is thus delivered at an early hour in towns where it formerly could not be obtained until long after the local papers had been issued. The *Spectator*, commenting on this fact, thinks the time may come when the London *Times* will drive all other rivals out of the field, and will become the only political journal read in England. It is not impossible that an approach to this state of things may be brought about in England, where there is a dense population within the limits of an island, every part of which can be reached by fast trains in a few hours from London. Here the conditions are different, and though the *Herald* and other papers have tried the experiment of running special trains to neighboring cities, the result has not been encouraging. Since the establishment of telegraphs all the great cities of the country have become news centers, and are in this respect on an equality with New York. Thus the same telegraphic news will be found in the Chicago papers that is found in the New York papers, together with the local Chicago news which the New York papers do not contain. The latter cannot, therefore, compete with the local papers of any other city. If our papers were very greatly superior to those of Chicago, Cincinnati, Philadelphia, or Boston, and could be sent through a pneumatic tube at a speed of 100 miles an hour, they might obtain the same practical monopoly of American journalism which the *Spectator* fancies that the London *Times* may obtain in England. Unfortunately, however, they are by no means better than the leading papers in other cities, nor is there any hope that they will be so long as the Associated Press and the telegraph monopolies exist.—*New York Graphic.*

BEECHER ON MCCLOSKY.—In the *Christian Union* of the 5th of May, Henry Ward Beecher says: "In one respect, certainly, all generous Christians should be thankful that for the first Cardinal in America there should have been selected a Christian gentleman of great personal worth, of simplicity of life, unostentatious fidelity and most devout Christian disposition. If any man could win the sympathy and confidence of Christians of other sects, the first Cardinal will. That the Roman Catholic Church of America has developed one stage further in its organic form is a matter chiefly concerning its own members; but that the man selected to represent this great church should be a man of universal sympathies, of a gentle heart, a good citizen, a friendly neighbor—in short a good man is a benefit to our common Christianity. For ourselves we have no fears of the undue predominance of the Roman Catholic Church in America. If its clergy and members, in a fair field, can gain an ascendancy over Protestant sects, by better preaching, greater industry, a holier zeal, more wisdom and perseverance, it is their right and duty to do so. They who live the best lives and do the best work have a right to possess the land. Meanwhile, should another Cardinal or two be needed, we shall not be alarmed or troubled. It is not for the Pope to consult a poor Protestant minister, but we suggest our former schoolmate, Archbishop Bayley, of Baltimore, as one well built for the robe and hat, and acceptable to liberal Protestants. We used to roll him over on the football green, and should not fear a Christian hug with him on the fairer field of Christian enterprise. May the blessing of God rest on all who love our Lord Jesus Christ in sincerity and truth."

HOW ELECTIONS HAVE BEEN CARRIED IN THE SOUTH.—MONTGOMERY, Ala., May 5th—J. S. Perrin, late a Republican member of the Legislature from Wilcox county, testified as follows before the committee now investigating the means by which Spencer secured his election to the United States Senate:

"Troops were retained before the election on the requisition of myself and others, it having been understood that Spencer had arranged for troops to be put at the disposal of the revenue officers when intimidation was necessary. These troops were accompanied by the United States Marshals, who had warrants with citizens' names prominently displayed, and shown to persons who would inform them, which were paraded in various counties. I shot a hole in my hat, and reported that I had been attacked by ku-klux, and I sent troops to arrest my mythical assailants. I kept troops as long as I could use them as a political machine. Our purpose was to secure the Legislature at all hazards and elect Spencer. A number of other witnesses testify to the same effect and purpose.

MR. BEECHER'S INCOME AND OUTGO.—Quite as obscure as this are Mr. Beecher's financial transactions. He receives a salary of $20,000 a year as minister; he is part owner of the *Christian Union* newspaper; he is a voluminous author, having written over thirty books; he obtains very large fees for performing marriage ceremonies, and he says that he made $12,000 on one lecture trip. For contributing to Bonner's *Ledger* and other journals, Mr. Beecher is said to receive several thousand dollars per annum. We have frequently heard his friends say that his yearly income has been from $40,000 to $60,000 per annum. Now, if he only saves his salary from Plymouth Church and spends the remainder of his income, he would have been able to lay aside $200,000 in ten years, not counting some $14,000 interest to be added to the principal. Yet some two years ago he mortgaged his house for $5,000. Of course his manner of keeping accounts and dealing in financial matters is of the deepest interest to every boy in America, who will be apt to copy so eminent an example.—*Brooklyn Argus.*

THE GRASSHOPPER PLAGUE AGAIN.—Says a dispatch from Chicago, May 14th: "Reports from portions of Missouri, Minnesota, Kansas and Nebraska state that grasshoppers are already devastating the country of every green thing, and that farmers are greatly discouraged. The pests seem to be young; at least they are very small, ranging from the size of a flea to that of a common house fly; but their destructive powers appear quite as great as those of a full-grown insect. A gentleman who has recently been on a tour in Southwest Missouri says the grasshoppers are devouring everything green in that section. The people are panic-stricken, and cattle and horses are dying by hundreds of starvation. They can find nothing to eat, not even in the woods, as the hoppers have eaten the buds and leaves from the trees. In Minnesota an investigation by the reporter of the St. Paul *Press*, sent out specially for the purpose, shows so far, that only a portion of four counties are troubled with the pests, but deposits of eggs are found in other sections, and serious damage to crops is feared.

A DEADLY SPRING.—About half a mile over a mountain from Bartlett Springs there is what is called the Gas Spring. This is probably the greatest curiosity of the mountains. The water is ice-cold, but bubbling and foaming as if it boiled, and the greatest wonder is the inevitable destruction of life produced by inhaling the gas. No live thing is to be found within a circuit of one hundred yards of the Spring. The very birds if they happen to fly over it, drop dead. We experimented with a lizard on its destructive properties by holding it a few feet above the water, it shrieched dead in two minutes. It will kill a human being in twenty minutes. We stood over it about five minutes, when a dull, heavy, aching sensation crept over us, and our eyes began to swim. The gas which escapes here is the rankest kind of carbonic, hence its sure destruction of life; also of quenching of flame instantaneously.

A PROLIFIC WOMAN.—A woman in Wilkes county, North Caroline, has given birth to triplets five times in succession. The children of each birth have been raised, and the whole number are now alive. No two of the children resemble each other in any marked degree, except the color of the hair. In the sex the female predominates largely. The children are all well developed, and without the least malformation.

FIVE hundred people were at the sale of lots at the new town of Kellogg, on Thursday. Fifty by one hundred and fifty feet lots brought from $90 to $300. Lots to the amount of $20,000 were sold in the first hour of the sale.

A STEAMER arrived at London recently from the Cape of Good Hope, Africa, with £50,000 in gold from the diggings, the largest consignment yet. One of the nuggets weighed nine pounds.

WOODLAND, CAL:

Friday, May 21st, 1875.

DECLINES.—James Anthony unequivocally declines to be the Independent candidate for Governor.

THE PALACE.—W. C. Ralston has sold his interest in the Palace Hotel to Wm. Sharon for $1,750,000. This gives it all to Sharon.

CANDIDATES.—The Democratic Dispatch, of Ukiah, Mendocino county, contains the cards of 22 candidate for office—all paid in advance.

DECLINES THE HONER.—Senator Sargent has written a letter in which he expresses determination not to again be a candidate for United States Senator.

DEATH OF A CONGRESSMAN. — Hon. Geo. A. La Dow, Congressman elect from Oregon, died at his home in Pendleton, Umatilla county, on the 1st instant.

AWFUL CONFLAGRATION. — A telegram via London May 18th says: A conflagration is reported at Peshawn in Africa, by which 15,000 people have been rendered houseless.

DEATH OF BRECKINRIDGE.—A dispatch from Lexington, Ky., dated the 17th, says: General John C. Breckinridge died here this evening of abscess of the liver, combined with consumption. His last hours were quiet and peaceful.

SOUTHERN RAILROAD. — Dr. Howard, who returned a few days ago from Gorgonio Pass, reports to the Los Angeles *Express* that the Southern Pacific officials have the road graded beyond the Summit and to the very edge of the Desert.

SPAIN.—A special from Madrid to the London *Daily News* reports that a Papal nuncio has made a formal demand for the restoration of Catholic unity in Spain, and the Government has replied that it is resolved to maintain liberty of worship.

COMPLIMENTARY.—The friends of Messrs. Anthony, Morrell, Larkin and Seabaugh, of the late Sacramento *Union*, tendered them a complimentary dinner at the capital city last week, which was a very pleasant affair, and an expression of regard for those eminent journalists.

CYCLONE.—In a late terrible cyclone in Georgia, over fifty persons are reported killed and many wounded. Hail stones fell as large as a man's head but broke in pieces. One piece was picked up seven inches long. This reminds one of the hail spoken of in the Revelations.

SENATOR NYE INSANE.—New York dispatches of May 17th, say Senator Nye, of Nevada, was yesterday removed by his friends from Bloomingdale Insane Asylum, as they considered that he could be far more satisfactorily cared for in some private asylum. He is pronounced hopelessly insane.

THE GRASSHOPPERS IN MISSOURI.—A special dispatch from Jefferson City May 17, says the Governor this morning issued a proclamation to observe Thursday, June 3d, as a day of humiliation and fasting, information having been received that the State is threatened with a grasshopper pest.

SAUCELITO LOTS AT AUCTION.—We call attention to the advertisement of a great sale of Saucelito property, to take place on Thursday, June 3d, 1875. Saucelito is one of the most delightful locations on the Bay, within a few minutes of San Francisco, and we doubt not the lots will sell readily.

FINDLEY ENDORSED.—The Democratic County Convention of Nevada County, which assembled in Nevada City on Saturday, to select delegates to the Democratic State Convention, adopted a resolution endorsing Hon. Thomas Findley as its first choice for Governor. Grass Valley, in Nevada County, was formerly Mr. Findley's home.

SUMMING UP.—The evidence in the Beecher-Tilton case is all in and the summing up has been commenced. Notwithstanding the supposed good character of most of the witnesses on both sides, the sworn testimony has been conflicting from beginning to end. Yet the jury is expected to find a verdict in favor of either side, but this would seem to be simply impossible.

NEW MUSIC.—We have just received the following pieces of new music from the leading music house of M. Gray, 105 Kearney street, San Francisco: "Japan Waltz," by S. H. Marsh; "Smile Whenever You Can," by L. Von der Mehden; "Lute Song," by An die Laute; "Kutschke Polka," by Von Ludwig Strasny; "She is so Innocent," song, from Le Cocq's opera, by David Nesfield. Send orders for these or any other pieces of music or musical instruments as above.

GERKE RANCH SALE.—We ask our readers to read the advertisement of the well-known Gerke Ranch in this paper. The Red Bluff *Sentinel* speaks very highly of it and says "it presents the finest chance for persons wishing to make homes and to make money ever presented in Northern California. The water privileges are splendid. The title is perfect. Crops this year will be good," etc. We have long believed that the opportunities for doing well were far greater in the northern then in the southern part of the State.

PUTTING IT STRONG.—The *Mail* says the new town of Winters will be "a curse rather than a blessing." If the writer of the "curse" lived in that locality he would not think so, or if he would take a broad, enlightened, liberal view of the matter. The taxable property of the county will be largely increased, and besides, Berryessa Valley itself will probably ere long be, as it was formerly, a part of our county. Go slow, neighbor; don't discourage enterprise, trade, wealth; and another thing all ought to be willing to concede—their neighbors' accommodation. We believe in economy in money expenditure, but it would be very poor economy to shut up avenues of intercourse and commerce.

CACHEVILLE PICNIC.—EDITOR DEMOCRAT:—Last Friday, the 14th, the friends and patrons of Cacheville school assembled in a beautiful grove two miles above town and joined in the pleasure of a grand picnic. It was a very pleasant affair to all present and reflected much credit on both teachers and scholars. Miss Effie Brown performed very acceptably in the capacity of May Queen, and the attending ceremonies were very creditably rendered, evincing great thoroughness in practice and training. The merits of the singing were beyond all dispute. The only regret entertained by the anxious parents is that the school is so near to a close.

The hospitality of August Rose, in contributing to the success of the affair, will long be remembered. He furnished prizes for a number of races which were highly entertaining.

CYRIL.

FRATERNAL VISIT.—Louis Walker, late of of Neosho Valley, Kansas, called on us last week. He has made a tour of the southern counties, but likes Woodland and Yolo county the best of any portion of the State yet visited. We like to record the fact that men of appreciation always give Yolo the name of being one of the very best counties, and Woodland one of the best towns in the State.

NEW PAPER.—We have received the first number of the *Pacific Coast Temperance Herald*, published in San Francisco. It claims to be "devoted to the interests of wholesale and retail liquor dealers, brewers, wine merchants, and all matters pertaining to the liquor trade," advocating temperance in all things.

DENTAL CONVENTION.—A letter from Dr. H. H. Pierson, President of the State Dental Association, informs us that the sixth annual session of the California State Dental Association will be held in San Francisco commencing June 8th at 10 A. M. and continuing four days.

WILL BE OFFERED

AT PUBLIC AUCTION.

THURSDAY.

Thursday, - - June 3d, 1875,

At 12 o'clock M., at New Salesrooms,

NO. 326 PINE STREET,

Bet. Montgomery and Sansome Sts.,

SAN FRANCISCO, - - Cal.,

We will offer for sale

ABOUT 300 LOTS OF GROUND IN SAUCELITO,

Varying in Size.

BUSINESS, WATERFRONT AND HOMESTEAD LOTS.

☞ Lithographed Maps and Catalogues, with full particulars, will be ready shortly, obtainable at our office, on the boats, or at the Company's office.

TERMS—One-third Cash; balance in one and two years; deferred payments to bear interest at NINE per cent. per annum, or any other mode of payment that may suit purchasers.

N.B.—A portion of the property to be offered at this sale is on perpetual waterfront to nine feet or more. To expatiate on the genial climate of Saucelito, and to explain that it is the nearest available spot contiguous to the great city of San Francisco, for manufacturing purposes un-surpassed, and really the seaport of Marin county (as the largest ships may anchor safely by the hundreds), to those having ever visited the village would be unnecessary. The pieces offered for sale immediately behind the high and abrupt hills, are free from the rough blasts of San Francisco, and have enough of the pure sea air to be agreeable. The Ferry facilities are such that in forty minutes the merchant or mechanic can reach almost any central portion of the big city, free from dust or noise. The distance by ferry is four and one-half miles from Vallejo-street wharf. Lots of all sizes, from 50 by 100 feet, or by acres, may be obtained at this sale. For accessibility, fertility of soil, unrivalled springs of water, excellent harbor, bold shores, etc., this property stands pre-eminently above any property offering to the public at present.

GREAT Land Sale!

THE GERKE RANCH,

COMPRISING

Fifteen Thousand Acres

Of the finest lands in the State, is now offered for sale in 40, 80 and 160-acre lots.

Sales Made by the Owner Direct

Or through agencies established by him.

NO MIDDLEMEN.

A FINE VINEYARD

Containing 100,000 vines, the youngest of which are 11 years old, capacity 100,000 gallons, will be included in the sale.

LOCATION.

THE GERKE RANCH is situated in Tehama and Butte counties. The California and Oregon Railroad traverses the eastern boundary for a distance of five miles, the Sacramento river bounding the west side. On the north flows Deer creek, which contains sufficient water to irrigate 50,000 acres; and the water right will be secured to every purchaser. The river is navigable to the farm at all seasons of the year.

HOMES.

To those seeking homes, this farm presents unusual attractions of soil, climate and location. The frost and drought which has been almost universally disastrous the present year has not injured the crops or vineyards in the least.

One hundred and fifty families can make themselves comfortable homes here.

Sale on Ranch, August 2, 1875,

(FIRST MONDAY IN AUGUST.)

TERMS OF SALE.

One-third cash; balance in one, two and three years at 10 per cent. per annum.

Probate Notice.

Estate of W. S. Long, deceased.

IN THE PROBATE COURT OF THE County of Yolo, State of California.

JOHN COOMBE and JOSEPH A. LONG, Executors of the Estate of W. S. LONG, deceased, having on this Nineteenth day of May, 1875, filed in this Court their first annual account of their administration, together with a petition, showing that all debts outstanding against the deceased, and all debts and charges of administration have been fully paid, and a portion of the bequests and legacies paid, the standing and condition of said Estate, that there remains in their hands real and personal property to be distributed to the legatees of deceased, and praying among other things that a day be set for the final hearing of said account, and that the same be allowed and settled and made final, and for an order of distribution of the residue of said estate among the persons entitled thereto, and for their discharge as executors.

It is ordered that all persons interested in the estate of W. S. LONG, deceased, be and appear before the Probate Court of the County of Yolo, at the Court Room of said Court, in the Court House, in the Town of Woodland, in said County of Yolo, State of California, on SATURDAY, THE TWENTY-SIXTH DAY OF JUNE, 1875, at One o'clock P.M., then and there to show cause why said account of the said Executors should not be settled and allowed as filed, and made final, and why an Order of Distribution should not be made of the residue of said estate among the legatees of the said deceased, according to his last will and testament and the law in such case provided, and why said executors should not receive their discharge.

It is further ordered that a copy of this Order be published for four successive weeks, before the said Twenty-Sixth day of June, 1875, in THE YOLO DEMOCRAT, a newspaper printed and published in said Yolo County.

Dated May 19th, 1875.

Town and County Matters

Democratic County Convention.

At a meeting of the Democratic Central Committee of Yolo County, held at the Court House in Woodland, on Saturday, the Eighth day of May, 1875, it was

Resolved, That a County Convention of the Democracy meet at Woodland on

Saturday, June 26th, 1875,

To elect SEVEN DELEGATES to represent the Democracy of Yolo County in the Democratic State Convention, to be held in San Francisco on the TWENTY-NINTH DAY OF JUNE, 1875, and also in the Third Congressional District Democratic Convention.

Resolved, That the vote polled for J. W. Bost in 1873, for State Harbor Commissioner, be adopted as the basis of representation in said Convention, and that each Precinct be allowed one Delegate for the Precinct, one for every twenty-five votes cast for J. W. Bost at said election, and one delegate for every fraction of twenty-five over twelve.

The following are the number of Delegates to which the Precincts are entitled :

Washington	81 Votes	4	Delegates.
Fairview	24 "	2	"
North Grafton	25 "	2	"
Buckeye	108 "	5	"
Woodland	324 "	14	"
E. Cottonwood	77 "	4	"

Chairman Democratic County Central Committee. my14-td7t

Races at Knights Landing Saturday Last.

Pursuant to announcement, on last Saturday the race, mile and repeat, came off at Knights Landing. Much interest was manifested in the result, and the contest was a close and exciting one. The original entries were: W. Lambert enters Veto, by Norfolk; John Goodson, Duff Green, by Lodi; D. P. Diggs, Minicball, by Norfolk; S. Barnes, Fanny, by Didapper. Fanny was withdrawn on account of lameness. At 2 P. M. the judges, Messrs. C. F. Reed and J. A. Douglass, called up the horses. They got off well together at the second start, Minnie inside, Duff Green in the middle, and Veto outside. They ran well together on the first turn. As they neared the first quarter Veto drew away from his companions and led by about two lengths, Minnie second, the Lodi horse running close up. It was a fine struggle to the half mile, when Minnie let out a link and passed Veto, taking the inside. The horses were all in a bunch until coming into the home stretch, when Minnie led handsomely to the close, winning the heat easily, Veto second, Duff Green third; time, 1:48. The second heat was a repetition of the first, except that Minnie took the lead at the start and maintained it easily to the close, winning the heat, race, and money; time 1:51. In the last heat the contest was between the Lodi and Norfolk horses, each tried hard for the mastery, but the Norfolk proved the best horse, beating Lodi fairly. Much money changed hands on the result. Veto was the favorite, bringing more in the pools than both the other horses, and his losing caused his friends to fall rather heavily; but every one seemed satisfied, as the race was a square one, and all seemed to think the fastest nag won.

The second race was a single dash of half-a-mile, five horses entered; won by Barus' "Daisy Dean;" time, 53 seconds.

SUPERVISORS.—A meeting occurred on Friday last for the pupose of facilitating road matters as much as possible.

The Board on Thursday visited the site of the town of Winters and the road leading therefrom through Putah Canyon to Berryessa Valley on a tour of examination.

J. P. Bullock had been empowered to tender certain amounts of money fixed as damages to parties through whose land the new road would pass, and several parties having accepted these tenders and granted right of way, an order was drawn in Mr. Bullock's favor for $444.44, in payment of the sums so expended.

Adam See having refused the tender made him by order of the Board of Supervisors, for right of way for Putah Cayon public road, District Attorney Baker was directed to institute proceedings to procure the right of way over the land of said Adam See as recommended by the surveyor and viewers.

Davisville and South Putah road matter set for further hearing May 27th.

Plans and specifications of the Cache Creek Cayon road were filed.

The County Treasurer was ordered to refund to W. W. Joseph the sum of $6 poll tax, twice paid.

Adjourned to May 26th.

HESPERIAN COLLEGE—During the vacation the Trustees are arranging to make the Commercial Department of Prof. True a regular collegiate department and are fitting up rooms with suitable apparatus to make it a practical as well as a theoretical department. This we believe to be one of the very best things that could be done. The collegiate course will hereafter turn out students thoroughly fitted for any position in life. The building is to receive a thorough renovation.

SPELLING MATCH AND STRAWBERRIES.—The Woodland Library Association will give an entertainment of this character at Central Hall this (Friday) evening, the proceeds are to be added to the Library Fund. Esq. Frost and one of the ladies will choose sides for the match. Strawberries will be served. Admission only 25 cents, and all are invited.

TOWN ELECTION.—Notice is published by the Trustees of an election to be held on the 31st of May, to decide whether the sum of $3,400 shall be raised by means of a tax upon the property of the town, for the purpose of furnishing an efficient fire department and necessary apparatus.

ITEM.—It is reported that one of the leading business men of Knights Landing is off on a visit, contemplating to return with a companion, we understand he withdrew from the Batchelors' Club before starting, without as much as giving his reasons therefore. [See "Married."]

GETTING READY.—Almost everybody seems be getting ready to go to the great circus and menagerie of Montgomery Queen, which is to exhibit here on Saturday, May 29th, afternoon and evening. See advertisement.

ENLARGED BUSINESS.—L. Dryfus & Co. have put up a new side-board in their wholesale establishment, fitted up in the latest city style and supplied with the very choicest beverages.

GOOD FOR THE TREES.—The Trustees of the public school are having the earth loosened around the trees in the school ground—a good idea.

Book Notices.

We have before us copies of the following popular works :

The World of Wonders.—From an examination of this very unique and interesting work we have observed, in a condensed form, about all the most wonderful events and wonders of the world. It is hardly possible to conceive or think of any topic in Arts and Sciences and Natural Wonders that you cannot readily find recorded in this volume—of all books this one is "pure cream." Large 4to edition; compiled from eminent English authors. J. R. Foster & Co., Publishers, Pittsburgh, Pennsylvania; A. L. Bancroft & Co., San Francisco, Agents for this Coast; sold by W. E. Callen, Agent for Yolo County.

The Great South, by Edward King, is the result of two years of constant research through the entire Southern States, and is a book of unusual interest. Handsomely bound, in various and substantial bindings; over 800 pp. and two life-like engravings from the pencil of J. Wells Champney—an ornament on any centre-table, and a storehouse of food for the mind. American Publishing Co. A. Roman & Co., Agents for the Pacific Coast. W. E. Callen will supply the demands for this county.

"Gen. Lee's family sought refuge at the White House, on the Pamunkey, where Washington was married to the Widow Custis, and which had been bequeathed by G. W. P. Custis to the second son of Lieutenant Lee's marriage with his daughter. But when McClellan advanced up the Peninsula, in the Spring of 1862, the family became refugees again. Before leaving the last homestead which remained to her, Mrs. Lee wrote and affixed to the house the following appeal :

"'Northern soldiers who profess to revere Washington, forbear to desecrate the home of his first married life, the property of his wife, now owned by his descendants.—

"'A Granddaughter of Mrs. Washington.'

"The house was subsequently burnt down."

The above is an extract from the work entitled *Personal Reminiscences, Anecdotes and Letters of Gen. Robert E. Lee*, written by J. W. Jones. Mr. Jones was a Chaplain in Lee's army, and says: "I followed his standard from Harper's Ferry, in 1861, to Appomottox Court House in 1865, rejoicing with him at his long series of victories, and weeping with him when compelled to yield to overwhelming numbers and resources." This work is sold to aid in the completion of Valentine's beautiful sepulcheral monument to General Lee, which insures it a large sale among all fair-minded men. The work has over 500 pp., four fine steel engravings of General Lee, two of Mrs. Lee, one of Stonewall Jackson, and fourteen fine, full-page wood cuts, among which is one of Valentine's beautiful Sarcophagus of Gen. Lee.

Ten Years Among the Mail-Bags; or Notes from the Diary of a Special Agent of the Post-Office Department—By J. Holbrook. This work should be in every family, and should be read by old and young. It contains a large store of knowledge not to be found elsewhere. 432 pp. and illustrated. A complete expose of all confidence men, lottery swindles, mail robbing, etc. Cowperthwait & Co., Philadelphia, Publishers; A. L. Bancroft & Co., Agents for the Pacific Coast. To be had only by W. E. Callen, Agent for Yolo County.

THE WINTERS' SALE.—The great sale of town lots at Winters takes place to-morrow, May 22d. A large number of lots will be offered, and there will, without doubt, be a good many buyers, so that the bidding will be lively. Everyone who takes in the situation must see that there will be a town there, because the locality and its facilities will command business. While we take pride in our own town, we also desire to see others built up all around us wherever the surroundings will warrant. Success to our sister town of Winters.

TO CONTRACTORS.—Notices are published by the Board of Supervisors inviting sealed proposals until the 27th of May at 2 P. M., for grading a public high road from a point near Mr. Devilbiss' ranch through Putah Canyon to the line of Napa and Yolo counties, according to specifications. Also for sealed proposals until June 14th at 2 P. M. for constructing two bridges across Willow Slough near E. K Barnes', as per specifications in Clerk's office.

THE ALLEGHANIANS. — This unsurpassed troupe of Vocalists and Swiss Bell Ringers will be here in a few days, having engaged Central Hall for their concerts. They held forth in Napa last week to crowded houses. So they do everywhere. We remember hearing them twenty-five or thirty years ago, and shall never forget their exquisite music. And if so good then, what must it be now? Everybody will surely want to hear them.

CHANGES.—The interest of J. H. Arnold in the Woodland flour mills has been purchased by his partner, J. M. Rhodes. Mr. Arnold and Mr. Geo. Schroth, of Sacramento, have purchased the Knights Landing Mills, of which they will take possession the first of July next.

DISTRICT COURT.—The case of Campbell vs. Wright is being tried before a jury, Judge Ramage occupying the bench. There are several cases to follow which will doubtless occupy a week or two.

GAS.—Hereafter Mr. E. Berg will have charge of the gas Works. Mr. Peck's time is fully occupied in attending to the Water Works, the demands upon which are increasing continually.

GOODS MARKED DOWN.—If you want cheap goods go to the great San Francisco Auction Store. Read the astonishing price list in this paper. They are bound to do a rushing trade.

R. R. MEETING.—There will be a meeting of stockholders of the Woodland, Clear Lake and Humboldt Railroad Company at the Court House on Saturday, 22d, at 1 P. M.

CORRESPONDENCE.—The crowded state of our columns compels us to defer till next week a letter from San Francisco, and other matters of interest.

SOLD OUT.—We learn that E. J. Haight of Davisville, has sold out his drug store to Dr. Gardner, a popular and successful physician of that place.

BORN.

At Knights Landing, May 14th, to the wife of T. J. Adams, a Son.

MARRIED.

At the residence of Mr. John H. Huston, Lake Co., Cal., Mr. Edward T. Huston, of Knight's Landing, Yolo Co., to Miss Fannie Boggs, daughter of Dr. Boggs, of Cloverdale.

The happy husband is a member of the popular mercantile firm of Huston Bros., of Knights Landing. His lovely bride will be gladly welcomed to her new home in our sister town, where she will grace society with the charms of a true woman.

At the bride's father's, in Los Angeles, Sunday, May 2d, 1875, by Rev. W. H. Hill, W. A. Brown, of Yolo county, and Miss Lizzie F. Smith.

BEAUTIFYING.—In Woodland, as in all places, there are a few who take pains in beautifying their homes and trying to make them pleasant and attractive. The latest done in this line here is by Mr. A. D. Porter, who has recently placed two very fine bronze fountains in his yard, one on each side of the main walk.

RETURNED.—Dr. Ross, who has been visiting the southern counties during a health recruiting excursion has returned home much improved and ready for practice again in his profession.

A VOICE FROM SWEDEN.—*American Chemists and their Production appreciated by the Professors at the celebrated Universities in Sweden.*

Mr. Sacks,—Sir.—At your request, I have tested Hall's Vegetable Sicilian Hair Renewer, in my practice at the "Seraffmer Hotel," and can say, it will restore grey hair to its original color. It is entirely harmless, and is a valuable remedy to use in such cases.

The Wear and Tear of City Life.

The wear and tear of city life are a severe tax upon the strongest constitutions. The hurry and bustle and anxieties of business keep the nervous system in a state of unnatural tension during business hours, and in the end impair the elasticity and vigor of the vital organization. The penalty of all undue excitement is subsequent exhaustion. The best remedy for it, whatever the cause, is Hostetter's Stomach Bitters, the tonic and alterative properties of which rapidly diffuse themselves through the entire system, revive and reinforce every dormant faculty, and restore a natural condition of body and mind. Some moral reformers insist upon the disuse of all stimulants. This, to say the least of it, is irrational. All competent physicians admit that a pure medicated stimulant is one of the most useful remedies known. As a tonic and invigorant for the aged and languid, Hostetter's Bitters has no equal. It is the sheet-anchor of the feeble and debilitated. In all climates and in every species of disorder which breaks down the bodily strength, it is an absolute specific. It is also an invaluable remedy for sea-sickness. The nausea and retching caused by the pitching and rolling of a vessel at sea paralyzes the bodily and mental energies, and those who suffer from it would do well to resort to the Bitters as a means of sure and permanent relief. No steamer should sail without a supply of the article. Among the botanic ingredients of which it is composed are some of the most powerful blood depurents which the vegetable kingdom affords. Consequently, it not only tones and invigorates, but also purifies the system through the natural sluices which nature has provided. my7

It is Asserted as a Fact

That every canvasser who has turned his attention to the introduction of the New Family Sewing Machine in his locality, or who has been fortunate enough to secure an agency, has outstripped the best efforts in making money of the old and tried Agents of the high-priced machines, which latter they now replace. The demand is enormous, and sales so rapid and money made so readily with so little effort that Farmers, Tradesmen, Speculators, &c., are flocking into the business as fast as they can secure territory and get their goods on the ground to supply anxious customers. It is marvelous how these machines sell when exhibited, it being a recognized fact that people will buy the best at the lowest price. It certainly is the Machine of the times and does the same work as other Machines at $80.00 or $90.00, and we really believe it would sell just as readily at double, and then not cost half the usual price of so good an article, for it is astonishing to see the vast amount of labor it performs at so low a cost. The inventors are daily inundated with testimonials of the worth of their new Machines which so suddenly and successfully bounded into popular favor. It proves to be just what is wanted every day, by every one, everywhere, who has a family. It has attained an enviable reputation in many thousands of homes and factories, for its solid strength, power, rapidity, simplicity, certainty, and ease of operation with extreme beauty, fineness and reliability of its sewing; while the wonderful low price (Twenty Dollars for a large and complete Sewing Machine with a strong table and treadle), places all idea of competition entirely out of the question. It stands alone in its merits and price. We advise you to invest in one at once for your Wife, Daughter, Mother, Sister or Lady Friend and make a home happy, or put them in your factory, or what is better if you are lucky enough, secure an agency, if there is none in your town, and make money yourself. The many new attachments for doing extra fine, skilful and difficult work, are a surprise in their simplicity of construction and far below even "grange prices," and will be delivered safe at your door, no matter how remote you may reside, if you write for them. MR. CHAS. W. FISH, who has been riding in Europe for the past two years, comes to America to dispute with MR. JAMES ROBINSON, the Great Bareback Champion, of world-wide celebrity. Mr. Fish has traveled eight thousand consecutive miles, with his horses, to meet Mr. Robinson in San Francisco. Mr. Fish is the only Equestrian who has ever dared to accept Mr. Robinson's challenge to ride for Ten Thousand Dollars. Both gentlemen have expressed a willingness and desire to meet in the rings of

Montgomery Queen's Great Moral Circus,

as the most fitting place for the trial of equestrian skill and daring. Will ride for $10,000.00 and the Gold Diamond Studded Belt of the World, Medals and Plate presented to both these artists by the Crowned Heads, Noblemen and Aristocracy of Europe, and the Distinguished Families of the United States. This is done to settle the disputed question of who is the Champion Rider.

Health the Source of Happiness.

The relaxation of the nervous system, which creates an indisposition to mental or bodily action, is of very frequent occurrence. It is found that a torpid liver, debilitated stomach or deranged bowels are the great causes. For years DR. HENLEY'S CELEBRATED L. X. L. BITTERS has been successfully used throughout the United States, as an unfailing restorative and health-giving medicine—restoring and invigorating those organs to their original strength. It has never failed to restore to health and reinvigorate the whole system. Dyspepsia, Indigestion and loss of appetite, general debility, rheumatism, fever and ague, disappear with its use. As a medicine for diseases arising from impure or impoverished blood, it is without an equal. They are composed of an absolutely pure diffusive stimulant, medicated with the extracts and juices of the most effective tonic, and will prove a safeguard against the attacks of dispepsia and liver complaint. ap16-3m

Paddle Your Own Canoe.

BY LYN.

Brother, there's a dark and stormy sea
That must be crossed by you and me;
The breakers you ne'er can struggle through
Unless you paddle your own canoe.

The clouds may lower, the waves roll high
Beneath a dark and sunless sky;
But, nevertheless, this sea has been crossed
By many a one on the dark wave tossed.

Many a barque frail as yours or mine,
Has stemmed the tide, has crossed the brine,
Then onward, still on through storm and night,
Till we gain that shore of eternal light.

That shore with bright sky and tropical clime
And songs far sweeter than vesper chime;
Then let us to God and ourselves be true
Not forgetting to paddle our own canoe.

Oh may we gain that eternal shore
Where we hope to anchor when our voyaging is o'er.
We can, if we're honest and upright and true,
And are careful to paddle our own canoe.

As we strive for the right and would be great
We must not for help from others wait,
For few there are who could raise one's name
Toward even the lowest pinnacle of fame.

Selfish indeed has this cold world grown,
Where many desire a great name of their own,
And who consider that duty is done
When they have selfishly looked out for number one.

Many there are who toil much in vain,
For nothing they get for their labor and pain;
Upward they rise, then backward are thrown
By some sly worker—to the toiler unknown.

While traveling over the sea of life,
Brother, take no hand in cruel strife;
For the right battle hard, do all you can;
And while here below among men, *be a man.*

And not from superiors do frowns always come;
From beings with proud, cold hearts come some;
But he is all right who's undaunted and true,
And forgets not to paddle his own canoe.

General Items.

THE Vallejo boot and shoe factory employs thirty hands—no Chinese.

THERE is not a town in the State, of equal size, that has so many vacant houses as Vallejo.

THE impression is gaining ground that the danger of a war in Europe is averted for the present.

LAST year the expenses of the National Grange were about $160,000, a large part of which was for printing.

THE New York Assembly has passed a resolution calling on the Government to recognize the belligerency of Cuba.

ACCORDING to statistics obtained from Protestant sources, 30,000 Spaniards have been converted to Protestantism since 1868.

SINCE the overland railroad went into operation, about six years ago, it has brought 240,800 persons to this State, and has carried 134,700 away.

FROM May 1st to July 20th the United States Government will be called upon to disburse $94,000,000 in gold, for interest and called bonds.

THE Carlists are shelling Gustaria, and have done great damage. A hot fire is returned from the fort and from five men-of-war in the harbor.

J. W. MANDEVILLE, generally known as "Boss Mandeville," of Tuolumne, will be a candidate before the Democratic Convention for Controller.

IT has been decided in a French Court that the landlord who fails to have his guests duly awakened to catch the trains they wish to take is liable in damages.

LINEN dusters, after the Ulster pattern, reaching to the heels and girdled with a belt, will be fashionable for gentlemen this Summer. Nothing is said about the bustles.

THE St. Louis *Democrat* has been absorbed by the *Globe*, and will hereafter be known as the *Globe-Democrat*. It will continue to be a strong supporter of the Administration.

THE largest sailing vessel on the great lakes was launched at Toledo on Wednesday last. She is 235 feet in length on her keel, and bears four masts, each over 100 feet high.

THE Sacramento *Herald* says: "The savings banks of the State owe their depositors $70,000,000—round numbers—and have only $3,000,000 cash on hand with which to pay them.

MORE than $55,000,000,000 passed through General Spinner's hands while he held the office of Treasurer, and the losses of all kinds were less than one dollar to a million.

THE Springfield *Republican* says: "The Republican party has been the party of sincere and moral men: it has now become the refuge of every species of corruption and hypocrisy."

JEFFERSON DAVIS, in an address to Texas Veterans of the Mexican War, at Houston, entreated them to be as loyal now to the Stars and Stripes as they were zealous and brave in defence of their first flag.

SEVENTY-THREE million pounds, or $365,000,000, were paid in 1874, for the beer and spirits drank in England, Ireland and Scotland. That is equal to $12.16 per capita for every man, woman and child of the population.

IN San Francisco, May 5th, Judge Louderback sentenced Richard Hammond, a boatman, convicted of assault and battery, for having thrown a pan of boiling water on a fellow boatman, to pay a fine of $250, or be imprisoned for 125 days.

MARYLAND is the only State of the original thirteen which had no revolutionary battle fought within her borders. Her sons, however, took part in the war for independence, and all her delegates to the Continental Congress signed the declaration.

D. B. HUFF, of Dixon, and the pioneer railroad builder of this part of the State, has taken a contract to lay the iron and ties on the Vaca and Winters road. It is confidently expected that the entire road will be completed and the cars running by the 4th day of July next.

NOONDAY ROCK, three miles northwest from North Farralliones, was blown up a few days since with eight hundred pounds of nitro glycerine. There is now nine fathoms of water over the site of this dangerous reef. A boat load of fish, killed or stunned by the concussion, was secured.

A TORNADO passed over the village of Green Springs, Ohio, May 10th, blowing down three houses, killing two children and demolishing every chimney in the place. In passing northward, several houses and barns between Green Springs and Clyde were blown down, and trees and fences destroyed.

THE Yuba City *Sutter Banner* informs its readers that "every foreign employe of the Railroad, if he be not a voter, but entitled to his papers, must get them, and vote the Republican ticket this Fall or emigrate. The word has passed along the line to this effect. We accidentally heard of it and know whereof we speak."

A NEWSPAPER correspondent calls attention to the great convenience that would follow if farmers generally would have their names painted on their gates at the entrance to their premises. Strangers often have much difficulty in finding the residences of persons of whom they are in search, which would be obviated by this course.

THE Brooklyn bridge is to be beaten before it is finished. Its rival, which is to be constructed over the Frith or Forth, Scotland, will be the largest in the world. The height will be 150 feet, and the number of spans 100. The great span in the centre is to be 1,500 feet, or nearly one-third of a mile in width, and the smaller spans 150 feet. It will cost about $10,000,000.

THE State of California is two and a-half times the size of New York. By reason of her climate, geographical situation, and the variety of her natural resources, she is better able than New York to sustain her population. The population of New York is set down at 4,500,000. If California possessed the same population in proportion to her size she would have $12,000 000 souls—that is 11,200,000 more than she now has.

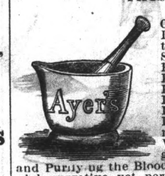
AYER'S CATHARTIC PILLS,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,



CURING

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt-Rheum Worms, Gout, Neuralgia, as a Dinner Pill, and Purify the Blood are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

AYER'S AGUE CURE,

FOR THE SPEEDY RELIEF OF

Fever nd Ague, Intermittent Fever, Chill Fever,

Remittent Fever, Dumb Ague, Periodical or Bilious Fever, etc., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

Rx

Has been widely used, during the last twenty-five years, in the treatment of those distressing diseases, and with such unvarying success that it has gained the reputation of being infallible. The shakes, or chills, once broken by it, do not return, until the disease is contracted again. This has made it an accepted remedy and trusted specific, for the Fever and Ague of the West, and the Chills and Fever of the South.

Ayer's Ague Cure eradicates the noxious poison from the system, and leaves the patient as well as before the attack. It thoroughly expels the disease, so that no Liver Complaints, Rheumatism, Neuralgia, Dysentery or Debility follow the cure. Indeed, where Disorders of the Liver and Bowels have occurred from Miasmatic Poison, it removes the cause of them and they disappear. Not only is it an effectual cure, but it taken occasionally by patients exposed to malaria, it will expel the poison and protect them from attack. Travellers and temporary residents in Fever and Ague localities are thus enabled to defy the disease. The General Debility which is so apt to ensue from continued exposure to Malaria and Miasm, has no speedier remedy.

For LIVER COMPLAINTS, it is an excellent remedy.
